Arnò

design : Bertrand Lejoly

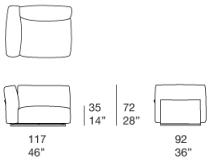

Sectional sofa composed of elements with high or low armrest, central and corner elements, and pouf.
Internal frame: matt-varnished steel provided with elastic belts.
Base: wood, matt- varnished in avorio or grafite colour, plastic spacers.
Seat, back and armrest cushions padding: stress resistant expanded polyurethane with fixed foam covering in recycled and biodegradable polyester fibre and polyamide.
Upholstery cover: removable and available in the indoor fabrics listed here below.
External frame: matt varnished steel.
Uphostery cover: removable, in a mélange knit in polyester.
Notes:
The external frames, upholstered with a knit and positioned behind the sectional elements, contain the the back- and the armrests cushions.
The removable upholstery knit is a Paola Lenti's exclusive: it is made time after time in a colour matching the fabric hue chosen for the sofa's elements.
These frames are particularly suitable when compositions are designed to be placed in the center of the room: in compositions conceived to be placed in different positions, the Arnò elements can also be used without them.
Loose cushions are recommended for complete seating comfort.
