Bistrò

design : CRS

Parasol with shade in fabric, available in two versions, with flat or dome-shaped sunshade.
The sunshade of both versions can be fixed (codes CA09A and CA09C) or can be bent in the desired position thanks to a varnished aluminium hinge (codes CA09B and CA09D).
The dome-shaped parasol is also available in a smaller size without joint.

Structure: aluminium, matt varnished in avorio or grafite basic colours, matt or gloss varnished in the colours in the collection (reference for colours: Mano Lucida wood sample collection).

Supporting rods: fiberglass, matt or gloss varnished in colour matching the structure.
Ballast: cast iron, matt or gloss varnished in colour matching the structure.

Sunshade: in Poppy or Herbier, new double-sided polyester fabrics used leaving the solid colour side on the outside and the patterned side – designed with large stylized flowers (Poppy) or with branches and leaves profiles (Herbier) – on the inside of the sunshade.

Notes:
Bistrò can stand free, but we recommend, whether it is possible, to anchor it to the ground; in both cases it is necessary to use the supplied moulded cast iron ballast.

Bistrò can be completed with the seating elements and side table of Clique series.

The fabric sunshade is provided with a covered central hole, which allow for a better air and heat circulation below the parasol.

A fabric band guarantee closing and safety of the parasol when not in use.

We advise to use a Winter Set protection cover.
