Description

The Italian design duo Chiaramonte Marin has created a new outdoor collection for BROKIS called Dome Nomad, which takes inspiration from the domes of Venice. Dome Nomad is an outdoor lamp whose dome shape represents eternity and the vastness of the celestial vault. The dome shape of the handblown glass section comes in one of two variants: smooth clear glass or wavy clear glass.

Tech. description

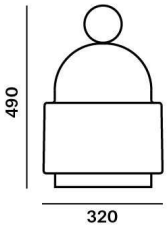

Dome Nomad is a portable battery-powered light offering approximately 4.5 hours of operation at full brightness. The LED module is integrated into the metal base of the light. The light is equipped with a magnetic connector Magconn for charging via USB. On, off, and brightness settings are controlled by means of a touch dimmer in the base. The outer rope is treated with a special penetrant to protect it against atmospheric influences. The light comes with its own USB charging cable.
