R|O|D|A

DOUBLE 031 Pouf

design RODOLFO DORDONI

DESCRIPTION
Pouf for outdoor use.

STRUCTURE
Aluminium covered with an electrostatic powder painting, with a polyester base.

PADDING
Hydrodraining padding made of open-cell polyurethane with three different densities, enclosed in a 3D net.

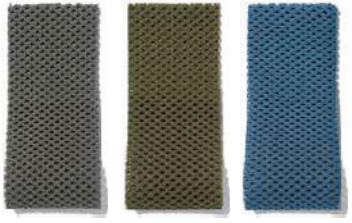

3D NET
Polyester three-dimensional net, with a pleasant hand-feel, and elevated technical performance: on the right side of the material the weave is more open in order to facilitate the drainage of water, while on the reverse side it is slightly more closely woven to hold the internal padding more effectively. A gap between the two sides gives softness to this fabric and enhances its drain-through capacity, ensuring a quick drying. Excellent color fastness to light.
Not fire resistant.

FABRIC COVER (optional)
Made with all outdoor fabrics of RODA collection.

WEIGHT
6 kg

STORAGE COVER
Available
