

Modular rug for exterior and interior environments.

The decoration is handcrafted from groups of four flat braids in solid colour two-colours in Rope yarn aligned with each other.
The distance between the group of braids is variable.
The braids are sewn with Punto Zigzag with a thread in matching or contrasting colour on cm 35 stripes of Kimia fabric.
The fabric stripes, whose number varies according to the rug's dimensions, are then joined together lengthwise with Punto Zigzag.
One colour can be chosen for the backing, up to a maximum of four colours can be chosen for the décor.

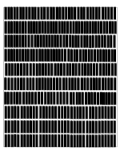

Materials and production techniques advise against the use of Kilis in high traffic areas.
