Kyo

design : F. Rota

Armchair.
The Kyo series also includes two- and three-seater sofas.
Structure: natural or dark brown dyed sassafras heartwood, seat area in stainless steel AISI 316 provided with elastic belts. Plastic spacers.
Seat and back cushions padding: recycled and biodegradable polyester fibre, stress resistant expanded polyurethane, fixed foam covering in waterproofed polyester.
Upholstery: removable and available in the outdoor fabrics listed here below.
Notes:
The structure in Sassafras heartwood is treated to be water and oil-repellent with water-based products to limit the absorption of liquids and greasy substances. The colour variation and the possible appearance of surface cracks on the sassafras structure are typical effects of the natural evolution of wood over time.
The seat and back cushions are simply placed inside the wooden structure and are joined together in order to maintain the necessary stability to guarantee the maximum comfort.
This product can be used also in interior environments.
We advise to use a Winter Set protection cover.
