Net 20

design : CRS

Net is a modular rug for exterior and interior environments created by joining elements in Maris fabric.

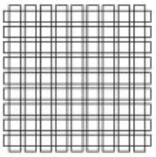

The rug's surface is composed of two layer of parallel bands that are orthogonally overlapped and joined with Punto Zigzag.
The floor can be seen through the gaps between the elements created by this crossing system as well as through the fabric weave.
The elements composing the Net 20 rug are 20 cm wide each.
Only one mélange colour can be chosen.
