A floating ring comprising a metal profile and an inner shade that scatters the light. The lamp's name is inspired by 'the nimbus or halo around holy images, which can be seen, but is not there'. Nimba shines light on the centre of nowhere to radiate out in all directions, effortlessly combining simplicity and high technology. LED versatility has enabled two new sizes, one smaller and one larger (60 and 180 cm diameter), to highlight all types of space and project with extensive, serene and soft light radiation.
