Portofino

design : V. Van Duysen

Large dining tables and bistrot table with stone top.
The Portofino series also includes a stool, a deck chair, a XL deck chair, a chair with armrests and a little armchair with folding structure, an armchair and a sofa.

Structure: heartwood treated with an industrial acrylic wax varnishing available in natural colour (black locust) or dark dyed (iroko). Adjustable spacers in stainless steel and rubber.
Top: made of stone elements matching the colour of the structure:
- Pietra di Comiso (structure in natural colour);
- natural lava stone (structure in dark dyed colour).

Notes:
Pietra di Comiso and lava stone are natural materials featuring unforeseeable differences between one slab and the other. The colour differences between the different components of the table tops are to be considered a value and not a defect, making each single table unique and exclusive.

This product can be used also in interior environments.

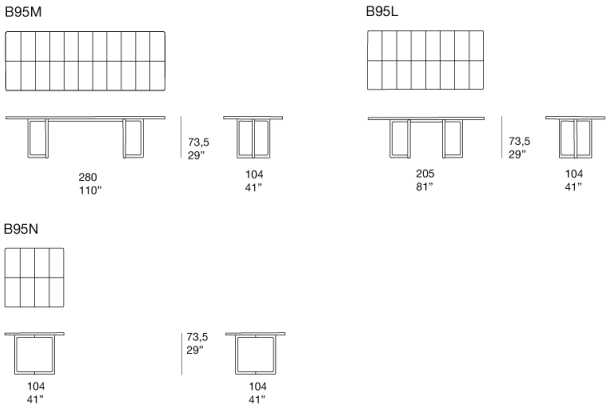

We advise to use a Winter Set protection cover.

Awards: the Portofino series has been awarded the GOOD DESIGN AWARDS 2016 in the Furniture category.
