Smile

design : F. Rota

Armchair available fixed or swivel.
The Smile series also includes a two-seater sofa and a pouf-container.
Base for fixed armchair: thermoformed plastic material complete of spacers. The base is provided with handles to make the piece displacement easier.
Base for swivel armchair: matt-varnished aluminium, grafite colour. Plastic spacers.
Padding: stress resistant cold injected polyurethane with wood insert, fixed foam cover in water repellent polyester, additional fixed foam cover in black polyester three-dimensional fabric.
Upholstery: removable and available in Aero or Moss fabric.
Notes:
The foam covering in three-dimensional polyester fabric has both a technical and aesthetical function. This cover is available in black colour only and will always be visible through the texture of the Aero upholstery cover, a technical openweave fabric with an elastic structure.
The swivel base is provided with a rotation system on ball bearings hidden in the structure of the armchair.
This product can be used also in interior environments.
We advise to use a Winter Set protection cover.
Awards: Smile won the MIAW, Muuuz International Design Awards 2014 as one of the most innovative product in 2013.
