Strap

design : V. Carrasco

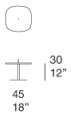

Series of side tables available in different dimensions. Side tables can be completely in aluminium, with or without a handle in the middle of the top, or with top in Esmal enameled copper.
SIDE TABLES WITH ALUMINIUM TOP
Structure: aluminium, matt varnished in avorio or grafite basic colours, matt or gloss varnished in the colours in the collection (reference for colours: Mano Lucida wood sample collection). Plastic spacers.
Top: aluminium, matto or gloss varnished in a colour matching the structure.
Handle: Rope cord matching the structure.
SIDE TABLES WITH COPPER TOP
Structure: aluminium, matt varnished in grafite colour, plastic spacers.
Top: enameled copper available in three different categories: A, B or C.
Notes:
The Esmal enamelling is obtained by Alessandra Malfatti with manual production techniques that make each top different from the others, unique and exclusive. Irregularity is the featuring characteristic of these tops.
The edge of the copper tops is not enameled, to allow the material to oxidize over time, a natural process, as it naturally happens, passing from a bright red colour to an intense brown, up to the classic oxide green.
This product can be used also in interior environments.
We advise to use a Winter Set protection cover.
