MELT PORTABLE LARGE LED

Hanging

Tripod

Melt is evocative of molten glass, the interior of a melting glacier or images of deep space. An imperfect, organic and naturalistic light that produces a mesmerizing hot-blown glass effect. Introducing a new standard fitting to the series, which works across our large polycarbonate shades creating a dramatic portable light that can be used both indoors and outdoors. Designed with a tripod base, Melt Portable Floor also comes with an easy hanging strap, giving you the option to suspend from a tree, pergola or a setting of your choice.
