technical details

FOSCARINI

Nile is a decorative lamp of remarkable character, with a vivid presence that brings sophisticated elegance to any space. An object that embodies the perfect balance of two opposites, the consistency of marble and the delicacy of glass, the contrast of mineral coolness and handmade warmth, industry and craftsmanship. Already beautiful when off, it takes on even more allure when the light filters through the precious blown glass, shining down to the surface below and upward through the two open sides of the diffuser. The arrangement of the two volumes seems to defy the law of gravity. The base and the diffuser, at different angles, remain in place thanks to an invisible game of weights, positions and joints for a unified dynamic effect.

RODOLFO DORDONI

With an array of activities ranging from architecture, to product design, artistic direction, and the setting up of showrooms and exhibitions, Rodolfo Dordoni has put his name to some of the most significant and famous Italian design projects, including Lumiere:

a contemporary restyling of the classic bedside lamp, made in blown glass and die-cast metal, which has become one of the biggest successes in the Foscarini collection. Again in blown glass, a material capable of conveying emotions of timeless beauty, is the Buds collection.
