# Mini Glo-Ball Ceiling/Wall

Designed by Jasper Morrison, 2002

Halogen - 25W

Ceiling- or wall-mounted lamp emitting diffused light. Features a diffuser made of externally acid-etched, hand-blown, flashed opaline glass with a white, injection-moulded PPS threaded ring nut.

Part of the Glo-Ball series by English designer Jasper Morrison, first designed in 1998 to evoke the quiet radiance of a full moon and the otherworldly magic of the night. With its soft, spherical form, Mini Glo Ball Ceiling/Wall maximises the diffusion of light, casting an even, ambient glow. The design aligns with Morrison's Super Normal philosophy of creating understated yet refined forms to enhance everyday spaces. Glo-Ball is part of the permanent collection at MoMA.

In our constantly evolving world and business, technical upgrades happen every day. This means all product specifications and data are subject to change without warning in order t improve reliability, function, performance or otherwise. We make every effort to ensure the accuracy of our product images, however due to different lighting and screens used for viewing, the colours may vary. Images are indicative of the quality and style of the product but may not represent the precise details of the product you receive. This is because we are constantly working to make improvements. For aesthetic reasons, cables and/or electrical elements are often not shown. Refer to technical data sheets for all technical data. Images and colours are not part of any contract or warranty in any way.
