

Materialism Oil Candle Large

A mysterious multi-coloured vessel contains a powerful refreshing blast of woody essential oils. With its melted edge and dented forms, no container is the same, the light refracting from the surface creates the lustrous effect of petrol on water or a dragonfly wing.

PROCESS	Mouth blown into a metal mould to create surface texture, this product is then painted black and finished with an iridescent paint and metallic decal. Candle wax is a natural soy and paraffin mix. Burning time approximately 60 hours.
