

## JABARA

AV BOARD

design Shinsaku Miyamoto

2019

Jabara AV board is a cabinet for audio-visual equipment conceived to elegantly and flexibly insert itself into the contemporary home thanks to its many variations in size and structure. One or several storage compartments featuring tambour wooden doors are alternated with an area designed for technological components. The latter, which is identified by a tilt and turn door in dark tinted glass, introduces a strong compositional element which - by contrast - highlights the Japanese aesthetics of the slim vertical lines of the tambour doors, typical of the Yoshido cane doors and the Sagano bamboo forests in Kyoto.

### MATERIALS

Body frame:	Walnut Oak
Finishing:	Walnut polyurethane finish N/L Oak polyurethane finish N/L Oak polyurethane finish W/Hh W/H
Door:	Sliding tambour door and glass flap door
Base:	Steel powder coating with black and hairline stainless steel acrylic urethane coating with 6 colors classic rose, shiny brass, antique brass, shiny bronze, antique gray and shiny hairline

### DIMENSIONS

	W1800 x D455 x H370 mm W1800 x D455 x H460 mm W1800 x D455 x H600 mm
	W2000 x D455 x H370 mm W2000 x D455 x H460 mm W2000 x D455 x H600 mm
	W2200 x D455 x H370 mm W2200 x D455 x H460 mm W2200 x D455 x H600 mm
	W2400 x D455 x H370 mm W2400 x D455 x H460 mm W2400 x D455 x H600 mm

## JABARA

### SIDEBOARD

design Shinsaku Miyamoto  
2018

Jabara sideboard is characterized by its 'Jabara' door, a sliding tambour door whose classical design is refined to timeless and minimalist beauty. It looks modern but somehow exudes nostalgic warmth. The unique appearance of the door conjures up an image of beautiful and continuous fine lines particular to Japan, which are seen in reed screen doors of townhouses in summer, and a bamboo forest in Sagano, Kyoto. Strips cut out of selected natural wood, piece by piece, and their rounded surface create fantastic shades, which in turn accentuates its profound look. And its organic and dignified appearance brings excitement and comfort into a room. Thick leather is selected for the front panel of drawers because its smooth but firm texture makes it an ideal material that brings you comfort when your fingers touch it.

### MATERIALS

Body frame:	Walnut Oak
Finishing:	Walnut polyurethane finish N/L Oak polyurethane finish N/L Oak polyurethane finish W/H
Front drawer:	Black, burgundy, vintage brown, taupe gray, dark brown thick leather
Base:	Steel powder coating with black and hairline stainless steel acrylic urethane coating with 6 colors classic rose, shiny brass, antique brass, shiny bronze, antique gray and shiny hairline
