

Heaven / Round table Ø80 Design / Jean-Marie Massaud

The idea underlying the Heaven project is that of lightness derived from forms emerging from hollow spaces bordered by interweaving lines. The thin, woven steel frame is the distinctive feature of a collection marked by well-proportioned lines and overall harmony. Steel chairs paired with transparent glass tops lighten the table surfaces, lending them an intangible quality. The harmonious and sophisticated shapes of the Heaven range of furniture give the impression of unconventional elegance.

Description

Code: **493+493/V**
Typology: **Fixed**
Collection: **Heaven**

Glass Top: Yes
Static Load: 100 Kg
Shape: Round

Technical Info

Width: **Ø 80 cm**
Depth: **Ø 80 cm**
Height: **75 cm**
Weight: **16.20 Kg**
Static Load: **100 Kg**
Seat Cushion:

Packaging

Packages: **2**
Pieces for pack: **1**
Dimensions: **73x73x78 cm - 90x90x5 cm**
Volume: **0.456 mc**
Polyethylene bag, cardboard box and wooden box

Heaven / Round table □80

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

Tempered Glass

Tempered glass in compliance with international standards BS 6206 and produced in compliance with standard BS 7376.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

The glass surfaces are easy to clean and do not require special maintenance. We recommend using a cloth dampened with water and a mild detergent, then rinse and rub with a dry cloth. Be careful not to scratch any painted surfaces. If the water used has an excessive amount of limescale or other mineral salts which leave stubborn marks or streaks when the surface dries, specific commercial products can be used for cleaning the glass instead of the mild detergent, except for painted surfaces.
